We at Dr. Sofa have dedicated ourselves to the solution of one of life's most perplexing problems: fitting furniture in our homes. The problem is, simple as it may sound, that there are times when the furniture we buy and space in which we reside are not always compatible. It may sound obvious, but we rarely think about the fact that American furniture designers and manufacturers produce furniture for use in private homes, and not for the narrow nooks and tight corners of New York City apartments.

Our trained "Furniture Surgeons" at Dr. Sofa are able to offer quick and convenient solutions to the space limitations of New York apartments by disassembling the furniture and creating a smooth fit.

Over the last year, Dr. Sofa has disassembled over a 1,000 sofas that were stuck in elevators, hallways, stairwells, doorways, streets, and living rooms across New York City and around the tri-state area.

Dr. Sofa offers 24 hours a day service, a well trained staff, and a quality guarantee. Dr. Sofa also offers disassembly and reassembly service for wall units, armoires, beds, etc.

Call Dr. Sofa today to see what we can do for you!

Design2Unit offers you complete renovation solutions from A to Z; from small repairs and custom made furniture, to a complete apartment or house renovation.

Our design team, which includes Architects and Interior Designers, will work closely with you and with our builders, carpenters, plumbers and electricians to establish a budget and to produce a complete, well-coordinated and aesthetic solution to all of your needs. We can provide you with design solutions for any of your spaces: Closets and Cabinets, Bathrooms, Kitchens, Bedrooms, Living / Dining Rooms, Family Room or any Interior Space.

As well, some home accessory items (wall coverings, fabrics, furniture, carpets, cabinetry, appliances, and other decorative elements), offered by different design stores can be purchased through us for more attractive prices. In any case that the work need to involve filing with the local authorities, we can do that too.

Design2Units is a manufacturer of fine contemporary furniture combining classical lines with 21st Century technology. Our style is inspired by the striking architecture of New York City's fusion of the classic and the modern, creating a unique and innovative line that allows for urban practicality as well as sophisticated imagination.

The company is dedicated to providing quality home furnishings that can be fully customized to the needs of our customers. From the dimension, to the materials, to the custom finish, our cutting edge manufacturing techniques allow you, as the customer, to work with our designers to create a product that is tailored to your desires. In addition, we strive to bring a product that maintains both high quality and unbeatable value.

The collection is currently available exclusively through our website. Here you can contact one of our designers, see finished samples, and partner on a unique solution for your home or office.
